

2-1-1 Helps Patient Find Healthcare *

Joyce, a 45-year-old woman working two jobs, was out of work sick for a few days. She worried that her condition was not improving but she lacked any medical insurance.

Joyce had been helped by 2-1-1 in the past so she decided to call and see if there were any options for her. She was referred to a couple of local health clinics that see patients without insurance and was also sent a free FamilyWize discount prescription card.

Joyce called back one month later to thank 2-1-1 for the information they provided her. She had visited a clinic and used her new FamilyWize card to obtain the medication she needed. Joyce stated that thanks to 2-1-1 she was now back to work and feeling much better.
